Unilevel Bonus and Direct Commission

With the Unilevel Bonus you start as a Distributor and receive points for each sale, from your own sales or from your whole organization's sales. For every 2 Euro in sales you get 1 point, for 100 Euros in sales you get 50 points.

You qualify for a rank in the Unilevel plan on the achieved points in a certain period. The total points that you and your organization produce determines your rank.

Example: You achieve the rank of Bronze Supervisor (1% in direct commission) by earning 500 points. That is 1000 Euros in total group sales. For this rank there is no time limit.

For the rank of Silver Supervisor you need 1.250 points in a one-month cycle. This can be achieved by personal sales volume or by organizational volume. All points of your entire organization count.

From the rank of Gold Supervisor to Gold Manager, the ranks must be achieved 3 times within 12 months to retain this for life. Each time the affiliate achieves the respective ranks, the qualifying rank income counts for that cycle.

From Bronze Director rank, points and sales are achieved monthly to get the commission. Once reached you retain the title, however, the rank of Gold Manager is guaranteed, even if this has not been confirmed 3 times.

In addition to the direct commissions, you receive the differential commissions from the sales of your affiliates, if your rank is higher than any of your direct affiliate referrals.

Dual Team Bonus

Your entire organization is divided into 2 lines and in addition to the direct commission package bonus; you get the Dual Team Bonus depending on your Package Status. These calculations are based on units, not points like the Unilevel Bonus is.

Every sale that your organization makes produces units that differ depending on the product.

1g Gold e.g. produces 1 unit, Exclusive Box 4 units, Branding Cards 50 units or a VIP package e.g. 100 Units.

If you achieve 50 Units with one line and 25 units with the other line then you are qualified for a payout cycle, which means you get 10, Euro 40 Euro, 60 Euro or 80 Euro, depending on your package status.

As seen below, the amount of converted gold will depend on your commission, which is in the "pending payout" account.

- Pending Payout of more than €200 will result in the automatic purchase of 1 gram of gold.
- Pending Payout of more than €1000 will result in the automatic purchase of 2 grams of gold.
- Pending Payout of more than €2500 will result in the automatic purchase of 3 grams of gold.
- Pending Payout of more than €4000 will result in the automatic purchase of 4 grams of gold.

Please note however that your personal monthly purchases will be taken into account. Meaning that if you have already made a gold purchase of 1, 2, 3 or 4 grams in a month, there will be no additional automatic purchase, depending, of course, on how much you have earned. Every Auto Save is calculated for 1 full month. The Auto Save checks if you have an active automatic monthly purchase already in place or if you have made any one time gold purchases this month, after this it checks how much commission is on your "pending payout" account. E.g. If you have set your automatic monthly purchase to 1g of gold and the commission on your "pending payout" account is €1500, the auto save will then only buy 1 additional gram of gold.

Example

Suppose you made 2 direct sales, one a Gold Package and the other a VIP package. You also got 2 new affiliates, one on the left side and one on the right side.

Your affiliate on the left side sells a Silver and a VIP package, that would also mean 2 new affiliates on your left side. And your affiliate on the right side completes two Gold and one VIP Package (3 affiliates), this would generate the following:

Left side:

Own sale = 50 units (Gold Package)
+ Team Sales 120 Units (1 Silver and 1 VIP Package)
= Total 170 units on the left side.

Right side:

Own sale = 100 units (1 VIP Package)
+ Team Sales = 200 units (2 Gold and 1 VIP Package)
= Total 300 units on the right side.

Because 50 units on the strong side and 25 units on the weaker side created 1 payout cycle, the calculation in this case is as follows:

Right side = strong side = 300 Units: 50 = 6 payout cycles

Left side = weaker side = 170 Units: 25 = 6 payout cycles + remaining 20 units which will be carried over to the next payout cycle.

In this example 6 Cycles are achieved and this means 40 Euros, 60 Euros and 80 Euros per cycle or 240 Euros, 360 Euros, 480 Euros Dual Team Bonus according to the Package Status.

Plus an additional Package Bonus for the direct completed packages. In this case 1 Gold and 1 VIP Package, which together generates a total commission of 10% (in this case 219 Euros), 15% and 20% (438 Euro) depending on the Package Status.

From each gram of gold bars sold worldwide in Karatbars, 0.95 Euros goes in the Karatbars pool. This pool is divided into 8 levels.

Example:

Level 1: 0.20 € per gram will be distributed in the first level.

If Karatbars sells 250 kg in a billing cycle this would be 250.000 g
 $250.000 \times 0.20 = € 50.000 €$ will be distributed in the first level.

50 people qualified for this level as follows:

- 25 people have 1 line with 5000 P and a residual turnover with 1000 P
- 10 people have 1 line with 5000 P and a residual turnover with 2000 P
- 7 people have 1 line with 5000 P and a residual turnover with 3000 P
- 5 people have 1 line with 5000 P and a residual turnover with 4000 P
- 2 people have 1 line with 5000 P and a residual turnover with 5000 P

The residual turnover on the weaker side per 1000 points counts as a share.

- 25 people have 1 share = 25 shares
- 10 people have 2 share = 20 shares
- 7 people have 3 share = 21 shares
- 5 people have 4 share = 20 shares
- 2 people have 5 share = 10 shares

Total = 96 shares

The shares are now divided by the € 50.000
 $50.000 : 96 = € 520.83$ per share
